The Journal of Accounting Education invites submissions for a special issue devoted to ethics as it relates to accounting and auditing education, in particular obtaining an understanding of the drivers and impediments for compliance with the fundamental principles and independence – integrity, objectivity, professional competence and due care, confidentiality, and professional behavior as described by international standards. For example, it has been suggested that the professional skepticism and “professional fortitude” or “moral courage” help professional accountants comply with the fundamental principles and independence.

Submissions for this special issue should be original work that deals in some manner with topics relevant to ethics as it relates to accounting and auditing education (for example, how professional skepticism and ethics more broadly should be taught in the classroom, course design, educational cases, teaching resources, and to what extent post-graduate practical training might be needed). The editors for this special issue solicit high-quality manuscripts of various types and research paradigms (for example, field or experimental investigations, archival, analytical, or survey research). All relevant submissions will be considered.

Submissions should be made electronically through [http://ees.elsevier.com/accedu/default.asp](http://ees.elsevier.com/accedu/default.asp) starting 1 January 2017. When submitting select the issue type as 'Special issue' and then the article type as 'Special Issue on Ethics Within an Accounting and Auditing Context'. The deadline for submissions is 15 August 2017. Acceptances will be on a rolling basis with an anticipated Special issue publication in June 2018. Revisions received after that publication deadline will be scheduled for the next issue. Early submissions are welcome, and potential contributors are encouraged to contact the guest editors to discuss ideas and topics. Authors should submit the following items within the EVISE system: (1) statement that the submitted work is original, that it has not been published elsewhere, and that the paper is not currently under review by any other journal; (2) cover page, containing title of the manuscript and complete contact information for each author; and (3) manuscript copy itself, without any author identification. For further information, please contact either of the following guest editors:

**Dr. Thomas Calderon**  
Chair,  
G. W. Daverio School of Accountancy  
College of Business Administration  
The University of Akron, OH

**Mrs. Diane Jules***  
Deputy Director, International Ethics Standards Board for Accountants (IESBA)  
New York, NY

*Deputy Director Jules will only examine manuscripts when they are near final acceptance.*
Journal of Accounting Education: General Information

The Journal of Accounting Education (JAEd) is a refereed journal published quarterly by Elsevier (http://www.journals.elsevier.com/journal-of-accounting-education). The JAEd is dedicated to promoting and publishing research on accounting education issues and to improving the quality of accounting education worldwide. The Journal provides a vehicle for making results of empirical studies available to educators and for exchanging ideas and instructional resources that help improve accounting education. The JAEd publishes manuscripts on all topics that are relevant to accounting education, including uses of technology, learning styles, assessment, curriculum, and faculty-related issues. The Journal includes four sections: a Main Articles Section, a Teaching and Educational Notes Section, a Case Section, and a Best Practices Section. Manuscripts published in the Main Articles Section generally present results of empirical studies, although non-empirical papers are sometimes published in this section. Short papers on topics of interest to JAEd readers are published in the Teaching and Educational Notes Section. The Teaching and Educational Notes Section also includes instructional resources that are not properly categorized as cases, which are published in a separate Case Section. Instructional resources published in the JAEd should meet relevant educational objectives and be available for general use. The Best Practices Section is meant to highlight innovative and effective institutional and individual accounting educator practices in areas such as student recruitment, student advising, student engagement, and alumni relations.
