Journal of Information Systems

Volume 31 starts Spring 2017 — Published three issues per year

Print ISSN: 0888-7985

Publishes academic and educational research, and the reports of practice advances related to information systems and information technology to support, promote, and improve information systems and information technology research, education, and practice.

Print only \$136

Journal of International Accounting Research

Volume 16 starts Spring 2017 — Published semi-annually

Print ISSN: 1542-6297

Publishes articles that increase our understanding of the development and use of international accounting and reporting practices or attempt to improve extant practices. International accounting is broadly interpreted to include the reporting of international economic transactions; the study of differences among practices across countries; the study of interesting institutional and cultural factors that shape practices in a single country but have international implications; and the effect of international accounting practices on users.

Print only \$131

Journal of Management Accounting Research

Volume 29 – 2017 — Published semi-annually

Print ISSN: 1049-2127

Contributes to improving the theory and practice of management accounting by promoting high-quality applied and theoretical research. Papers relate to internal reporting and decision making, the interface between internal and external reporting, profit and not-for-profit organizations, service and manufacturing organizations and domestic, foreign and multinational organizations.
