

## External Relations Committee Report

The external relations committee was involved in two external relation issues. The first involved the IRS request to have a booth at the Mid-Year meeting to advertise the enrolled agent exam. The committee was involved in setting up the criteria for the booth and coordinating discussion between the IRS representative and the Vice-President Andy Cuccia.

The second relations issue was the recommendation of individuals to serve on AICPA resource panels and committees. The committee's recommendations were forwarded to President Mark Higgins for his approval.

External Relations Committee Chair

Tom Omer
