

## **6. C3 Call again in 2006:**

To allow sufficient time for development of new materials, the executive committee and the education committee have decided to wait to publish the next set of C3 materials until 2006. A call for submission of classroom cases, projects, and activities for potential inclusion in the next C3 will be sent out early in 2006. Be thinking about classroom materials that you have developed that would be appropriate for inclusion. Sally Webber, who will serve as the new editor for C3 would be happy to receive any materials that you have developed prior to the official call for submission. Sally may be reached at [swebber@niu.edu](mailto:swebber@niu.edu) or 815-753-6212.
