

**Thursday morning CPE 8am – 12pm: Faculty/PhD Students/Practitioner Teaching Success Workshop**

**[Nominal additional cost \$50 for 4 hours of CPE]** The Workshop not only provides many best practices and teaching tips from nationally recognized master teachers but also provides career path specifics and insights about becoming successful faculty members.

8:00-8:15 Introductions and Welcome by AAA President and/or VP Sections and Regions

8:15-8:50 AAA President and/or VP Sections and Regions welcomes participants to the academy by explaining the life of an academic and the different career paths available.

8:50-9:05 Participants involved in the first of three segments on what technology a successful academic uses to teach.

9:05-10:00 Participants learn about teaching fundamentals including VARK learning modalities, learning levels, and the teach/learn/assess process.

10:00-10:15 Participants involved in the second technology segment.

10:15-10:30 Break

10:30-11:20 Participants prepare for class and hear some words of wisdom from other faculty.

11:20-11:35 Participants involved in the third technology segment.

11:35-12:00 Q&A

-----

**Thursday Reception: Technology Tips and AAACommons Activities**

Enjoy hands-on experiences with a variety of technology tools (iPads, pulse pens, etc.) guaranteed to motivate student learning and increase your love of teaching.

**Friday late morning session: The Commission on Accounting Higher Education: “Pathways to a Profession”**

Accounting is vital to the efficient and equitable functioning of the nation’s financial system. The Commission on Accounting Higher Education, established by the AAA and AICPA, is in the process of examining the challenges and opportunities that our accounting education and professional communities are uniquely prepared to address. The Commission is taking a visionary approach to accounting education to meet the human capital needs of the profession in the coming decades. New educational pathways to our profession are being explored and old pathways revisited to achieve the outcomes required given the forces of globalization,

intriguing and unpredictable new technologies, increasing societal diversity, and economic complexity.

**Friday afternoon after lunch until end of afternoon break in the Exhibits area: Effective Learning Strategies Session and Ice Cream Social** (Ice Cream Social is sponsored by TLC but is open to all members)

This poster session in the exhibit area showcases ideas, research, strategies and education innovations that support learning in accounting. The interactive format provides opportunities for presenters to engage colleagues in the exchange of ideas and resources. Members interested in sharing learning-related interests and projects, scholarship of teaching projects, and educational innovations are encouraged to submit proposals that will be reviewed and selected by CTLA and ELS program committee members on a two week rolling submission basis. ELS previously accepted for national meeting will receive an automatic invitation to present at their region's meeting. The Get To Know AAA's Sections and Regions Fair posters from the AAA Annual Meeting will also be showcased.

**Friday afternoon session after the break: Strategies for Achieving Research-Teaching Synergies**

As accounting faculty members today we are expected to be great teachers and scholars as well as good community citizens. This requires an ability to work efficiently and effectively. This session will discuss strategies for achieving teaching-research synergies, i.e., taking a course activity and achieving multiple objectives. The key is adequate planning, which will allow the accounting faculty member to develop learning activities that can be used to 1) improve teaching, 2) assess learning (for course-embedded and/or program-level assessment), and 3) develop scholarship. Come with a learning objective and activity in mind (such as exam, quizzes, projects, cases) and develop an effective assessment and research plan in conjunction with this activity!

**Saturday morning session: Tackling Teaching Together**

This session engages all participants in discussions about the most pressing teaching questions facing us today. The interactive format provides opportunities for all to exchange ideas, strategies, best practices, and resources. During the question debrief, group responses will be recorded and then shared on the AAACommons.

**Saturday morning after the break session: Hands-on with AAA Online Resources – Optimize Your Teaching and Research**

The AAA has invested in a wide range of technologies to support your career development from job placement through teaching and research successes. In this session, we will demonstrate the technologies and get feedback on how you have been using them - and any successes

and/or frustrations that you've experienced. Optimize this session's hands-on experiences by bringing your computer, wifi device, or usb drive loaded with your favorite syllabus, lecture, assignment, teaching tips, or research in progress.
