XBRL INTERNATIONAL CONFERENCE

Dubai, 13-15 November, 2018

Get Ready for Data Amplified

Immerse yourself in the future of business reporting. Explore the intersection of regulation, technology and business. How does structured data combine with new technology? Create new data insights, new confidence and new decision capabilities.

The academic track at the XBRL 2018 International Conference provides a platform for academics and professionals from around the world to present their research related to XBRL, data analytics, and FinTech innovations, such as AI, blockchain, and data quality, to the leading researchers and practitioners in these domains. By attending the XBRL International conference academics will have the unique opportunity to receive feedback from the professional XBRL community and, in turn, inform them about their latest research ideas.

Papers and extended abstracts are sought for the academic track on any aspect of XBRL technology, adoption, market impact or application. Outlines of proposed research projects and early stage research are also encouraged. Full details of the XBRL 2018 International Conference is available at https://www.dataamplified.org/.

Please note that there will be a reduced registration fee for academics.

Papers, extended abstracts, and proposals should be submitted to Professor Glen L. Gray at glen.gray@csun.edu **by September 15, 2018** [Earlier submissions are appreciated]**.**

For more information please contact the track chair:

- Glen L. Gray (glen.gray@csun.edu)
