The membership chart above shows a steady decline in membership from year to year with the exception of a temporary influx of new members in the 2001-02 period when membership promotion campaign was initiated with the help of a marketing company. The decline in membership was abated in 2005 by the number of new members attending the Annual Meeting and the increase in associate members in the past year. The library subscription chart shows a consistent decline in subscritions to hard copy association-wide journals which will change with the advent of electronic library access.
