**Policy Statement:**

The American Accounting Association’s publications ethics policy is a framework developed to inform authors, editors, and reviewers of their responsibilities to ensure the quality and integrity of manuscripts published in our journals and presented at AAA conferences.

Part E of this policy focuses on minimizing overlapping decision rights.

**Cultural Norms**

- The American Accounting Association has a strong community of scholars and values diversity of expertise in domain and research methods.
- AAA collection of journals provides authors a wide range of outlets for their work. To insure each journal provides a unique opportunity for publication, and to enable a wide range of scholars to be involved in the publication process, the journals are strengthened when decision rights are distributed across members of the community.

**Process**

An editor will recuse him/herself from handling a manuscript if he/she has acted as editor or reviewer on that manuscript or a previous version of the manuscript at any other journal.
