

### **h5-Index**

The h5-index is Google Scholar's version of an impact factor. It is based on the Hirsch index and tracks articles and citations over a 5-year period. If a journal has an h5-index of 10, it means the journal published 10 articles that were cited at least 10 times.

### **Google h5-Index Rankings**

<b><u>Ranking*</u></b>	<b><u>Journal</u></b>	<b><u>h5-Index</u></b>
1	The Accounting Review	62
