We have received nominations for President-Elect and VP-Practice. Other nominations will be solicited at the meeting, followed by the elections. There will be other issues to discuss, so bring your thoughts to the meeting and I will see you there!

GIWB Bylaws are on GIWB Website:

Revisions to the GIWB Section Bylaws were approved last year. The newly revised Bylaws provide information for activities of the GIWB Section, including officer duties and awards criteria. Please check them out online (http://aaahq.org/GIWB/GIWB_Bylaws_Aug2013.pdf).

Member News and Accomplishments:

GIWB Section Member, Margaret Tanner, Professor of Accounting, has been appointed Interim Dean and in the College of Business at the University of Arkansas – Fort Smith.

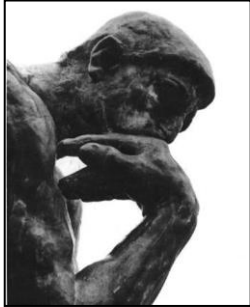

GIWB Section Member, L. Murphy Smith, coauthored a textbook on international business for undergraduate students. The book is titled: *Introduction to Global Business: Understanding the International Environment & Global Business Functions*, published by Cengage Learning. The textbook introduces the comprehensive foundational and functional tools to equip students for a global business environment. The text flows from theory to application, asking students to implement their classroom learning into real-world personal applications. More information about the book is

available online at <http://goo.gl/LcCJ4J>.

Smith notes, “Many people are unaware of the multinational influences on the field of accounting, going back to ancient times. For example, applications of accounting-related tasks have been identified in ancient Mesopotamia and in the Roman Empire. Examples of ancient Middle Eastern writings on accounting topics include biblical passages. Use of accounting reports to monitor a steward’s performance is mentioned in Jesus’s parable of the ‘unjust steward’ in Luke 16:1-13. The internal control concept of dual custody of assets appears in the Apostle Paul’s handling of money in 2 Corinthians 8:18-20. The ‘Father of Accounting,’ Luca Pacioli was a Franciscan friar who lived in Venice, Italy. He authored the first book on double-entry accounting in 1494.”

Teaching News:

PowerPoint Presentations on Ethics: Available online

(<http://goo.gl/7s3zB>) are four ethics-related presentations: (1) Ethics in Business and Society, (2) Pursuit of Ethics: Heroes and Villains in Life and Legend, (3) Teaching Ethics: Why, What, How, and (4) Ethics--The Basics and Why It Matters: An Ethics Presentation Adaptable across Academic Fields. Ethics is a critically important issue for persons working in accounting and other areas of business. While teaching technical concepts and skills, various professional organizations, ask that business school faculty integrate ethical training into their classes. While financial statement

analysis and corporate financial reporting requirements are important technical topics, the issue of ethics addresses deeper truths about doing business and life in general. These presentations make a compelling argument that what really satisfies a person's soul is not fame and fortune, but living a life reflecting noble character and personal integrity

Great Ideas for Teaching Accounting: South-Western College

Publishing has created the Great Ideas for Teaching accounting site (<http://www.swlearning.com/accounting/car/gita.html>) to allow accounting professors the opportunity to share their teaching techniques. The teaching tips contributed by various accounting professors are categorized into a table of contents similar to that of an introductory accounting textbook. The site also provides tips on classroom management, communication skills and teamwork development. Visitors can use a form at the site to

submit their own teaching ideas.
