Excel-based tasks and cases

We are embarking on a project to provide a resource that provides a range of different excel-based applications and tasks. This is ahead. For the moment, we would like to draw your attention to an excellent resource developed and provided by Karen Braun at:

https://sites.google.com/case.edu/excel-for-management-acctg/home

Task are spread across seven different managerial accounting topics. Well worth investigating.

Perhaps you might like to share your favourite excel-based problem, task or case. Email me at: albieb@unimelb.edu.au
