Workshop #21: Managing Fraud Risks in Uncertain Times

Specialized Knowledge – 3.6 CH

Presenters: Mike Brodsky, Deloitte & Touche LLP; Christine Cheng, University of Mississippi

Sponsor: Forensic Accounting Section

Participants will learn about managing fraud risks prevalent in today's times and the fraud risk landscape that companies are facing.

Long Description:

In this session, presenters will share about the different fraud risks that are prevalent today, how companies can deal with the risks, and the SEC's current focus. Participants will be able to engage the presenters and each other in discussions about the fraud risks, how to better manage those risks, and regulatory focus on current issues.

Format/Structure:

This session will have presentations and discussions on two topics: 1. Managing Fraud Risk in Uncertain Times 2. SEC Update
Both topics will have equal time allotted. Presenters will spend the first 1.5 hours of each presentation going over the topic and then there will be time for discussion among the attendees as well as a Q&A session.

Intended Audience:

Professors interested in fraud research, those who are teaching fraud courses who are looking for up-to-date risks and examples, and those who want to know more about the SEC's current focus.

Prerequisites:

none

Advance Preparation:

none

Learning Objective:

1. Learn about the current fraud risk landscape that companies are facing.
2. Learn how companies can be managing fraud risks related to the current landscape.
3. Identify fraud research questions that are relevant to practice.
4. Identify new teaching and learning approaches within the field of fraud and forensic accounting.

Field of Study: Specialized Knowledge

Program Level: Basic
