

## 53<sup>rd</sup> World Continuous Auditing & Reporting Symposium

**November 4 & 5, 2022**

**The Leading Global Forum on The Application of Technology to  
Accounting, Auditing and Financial Reporting**

### CALL FOR PARTICIPATION

The **53<sup>rd</sup> World Continuous Auditing & Reporting Symposium** (53 WCARS) is the leading global forum on the application of technology to accounting, auditing and financial reporting. The aim of the conference is to provide a forum for all stakeholders, including accounting customers, regulators, the Big-4 and regional accounting firms, internal auditors, and technology vendors to share experiences, best practices, and emerging technologies.

We are pleased to announce that after two years of virtual conferences necessitated by Covid, the symposium will be in-person again this year.

We invite presentations, papers, and proposals for panels for 53WCARS. The participation of vendors and implementers of new accounting related technology is particularly encouraged.

The conference attracts a large audience, with record attendance at our virtual conferences in 2020 and 2021. Most participants come from the internal audit departments of leading businesses and governmental organizations, as well from the vendor community. Commercial firms in the IT space often appear along with their lead customers to demonstrate their product's ROI and best practices.

Please submit proposals for participation to Dr. Michael Alles at [alles@business.rutgers.edu](mailto:alles@business.rutgers.edu) by September 16, 2022. Details of the 53 WCARS will be forthcoming on the conference website: [www.raw.rutgers.edu/53wcars](http://www.raw.rutgers.edu/53wcars). Registration is scheduled to open around September 26, 2021.
