

## Call for Papers

### Special Section of Journal Emerging Technologies in Accounting *ESG and Technologies*

The *Journal of Emerging Technologies in Accounting (JETA)* is the academic journal of the Strategic and Emerging Technologies Section of the American Accounting Association. *JETA*'s Mission is to encourage, support and disseminate the production of a stream of high-quality research focused on emerging technologies and artificial intelligence applied or applicable to a wide set of accounting related problems. *JETA* plans to publish a special section featuring work on the combination of Environmental, Social, and Governance (ESG) and Technologies. The editor of *JETA* invites submissions of original unpublished work for this special section.

ESG reports receiving increasing attention from both the accounting academia and practitioners in recent years. However, the growth of research exploring the role of technologies in preparing, sharing, and controlling the quality of ESG reports is still slow. This call for papers aims to promote theoretical and empirical academic research on the challenges and opportunities of using technologies in ESG reports.

Areas of interest include, but are not limited to:

- Usage of AI in ESG analysis and reporting
- Application of technologies in ESG reporting
- Application of technologies in ESG assurance
- Application of technologies in ESG risk assessment/management
- New standards and regulations regarding using technologies in ESG
- Case studies of using technologies in ESG
- Frameworks on using technologies in ESG
- The acceptance of technologies in an ESG context
- ESG and continuous reporting
- ESG and continuous auditing

All research methods are welcome, including review, archival, design science, behavioral, qualitative, field, and case study. Submissions are due by **November 30, 2023**. Early submission is encouraged, and the review of submissions will be on a fast track.

Submit via the *Journal of Emerging Technologies in Accounting*:
