Submission Deadline: February 15, 2023 (*early submission is encouraged*)

The goal of this conference is to expand the diversity and scope of international accounting research, through increased understanding and awareness of the challenges and opportunities of international accounting. Original and rigorous research will provide academics, practitioners, and regulators with deeper insights into international accounting issues. *Journal of International Accounting Research* (JIAR) continues to welcome innovative and high quality research that examines how accounting data affects capital market participants. Papers that address interesting and innovative research questions in all areas are welcomed.

Papers can be submitted for consideration in one of three tracks: Plenary Sessions, Concurrent Sessions, or Forum sessions. There will be a best paper award for the papers presented in the plenary sessions.
