Overview

The conference is hosted by the PCAOB's Office of Economic and Risk Analysis and aims to:

- Inform the academic community about PCAOB activities and developments.
- Obtain input from the academic community on topics of interest to the PCAOB.

The conference organizers encourage the submission of papers on all aspects of auditing corporations, brokers, and dealers as well as the impact of audit regulation and audit oversight. Papers may be theoretical, archival, or experimental in nature.

process, a program committee consisting of PCAOB staff, with input from the academic experts, will select the papers for discussion.
