

Call for Papers

2nd Behavioral Research in Accounting (BRIA) Forum

After a successful first edition last year, we will again organize a *Behavioral Research in Accounting* forum as a plenary session during the 2025 Accounting Behavior and Organizations (ABO) Research Conference on October 9–11, 2025, in Indianapolis. Two papers will be selected for presentation during the forum. A senior academic will be assigned as a discussant for each paper. The intention is that both the final versions of the papers and written versions of the discussions will be published in *BRIA*.

We invite submissions from all domains of behavioral accounting research for presentation at the *BRIA* forum.

To be considered for the *BRIA* forum, please submit a manuscript via the *BRIA* homepage (<https://aaahq.org/Research/Journals/Behavioral-Research-in-Accounting>) and include a cover letter indicating that it is intended for the *BRIA* forum. Submitted manuscripts should follow the guidelines for a *BRIA* submission, which are found linked to the *BRIA* homepage. Forum submissions follow the normal *BRIA* review process. The papers for the forum will be selected by the *BRIA* editors from the papers that receive a “revise and resubmit” decision after a first round of reviews. Manuscripts that are not accepted for the forum can still be published in *BRIA*.

Authors who submit their paper for the *BRIA* forum can also submit the same paper for a regular presentation at the ABO conference, should they want to. The conference organizers and *BRIA* editors will coordinate to avoid a duplicate acceptance.

Timeline for submissions:

Submissions due: March 31, 2025

Decisions about acceptance for the forum: May 30, 2025
