

# American Accounting Association Annual Report

## *The Accounting Review*

For the Year Ending December 31, 2025

### I. INTRODUCTION

The mission of *The Accounting Review* (*TAR*) is to publish high-quality academic research using rigorous, state-of-the-art, research methods conducted across a wide range of topics and methods. The journal aims to expand knowledge in all areas of accounting, such as to inform the practice and regulation of accounting and highlight the importance of accounting as a tool for decision-making. The journal welcomes cross-disciplinary collaboration that furthers its mission. The primary criterion for publication in *TAR* is the significance of the contribution an article makes to the literature. Topical areas of interest to the journal include accounting information systems, auditing and assurance services, financial accounting, management accounting, taxation, and all other areas of accounting, broadly defined. The journal is open to all rigorous research methods.

This annual report documenting the activities of *TAR* for calendar year 2024 presents information about the performance of the journal in a more concise and consistent manner that aligns with industry standards. In particular, the report updates readers on submission and decision information, new initiatives, policy changes, and modifications to the journal's editing team, as well as expressing our gratitude to *ad hoc* editors and reviewers. It directs interested readers to find more detailed information about the journal, including submission directions and manuscript processing times, on its website: <https://aaahq.org/Research/Journals/The-Accounting-Review>.

### II. COMMENTARY BY THE SENIOR EDITOR

I remain deeply grateful to my editors and editorial board for their outstanding contributions during another highly successful year for *The Accounting Review*. In 2025, we issued more than 1,200 decision letters, co-hosted a conference in collaboration with the PCAOB, and celebrated the 100th birthday of *TAR* with thought-provoking presentations on the past and future of accounting research by top scholars in four fields of accounting at the American Accounting Association's 2025 Annual Meeting. Essays based on the talks were published in the 100th volume of *TAR* and quickly rose to the top of the list of "most read" articles in *TAR*. If you haven't read them yet, I encourage you to do so. They are filled with great ideas about where accounting research might be headed. Whew! It was a busy year.

An important goal of my editorship has been to ensure that *TAR* is receptive to a broad range of accounting research methods and topics performed by a broad range of scholars. My main lever here has been to put in place editors who reflect this breadth, to the extent possible. I believe we are seeing fruits of that labor. Due at least in part to the increase in submissions in 2024 and 2025 over the prior two years, we accepted about 20 percent more papers in 2025 than in 2024. While we accepted about 10 percent more financial archival papers in 2025 than in 2024, the balance of papers across topics and methods also improved in 2025. Papers on managerial and audit topics are better represented, as are papers using the field or case methods and experiments. These shifts partly reflect the evolution of the field. I am thankful that we at *The Accounting Review* were prepared for this evolution. I thank the editors for their hard work in identifying and nurturing important papers both inside and outside of the usual sources, and I am looking forward to *TAR*'s continued success in 2026 and beyond.

—Kathryn Kadous, Emory University

### III. EDITORIAL PROCESS

AAA staff and their editorial partners perform an initial quality control (QC) check of new submissions to the journal to ensure the manuscript files are prepared in accordance with AAA guidelines. Successful submissions are forwarded to the senior editor, who also performs an initial screening, this time focusing on the paper's subject and methods. Papers that do not meet the journal's mission and scope are desk rejected. Otherwise, the senior editor assigns the paper to an editor for review. Based on the topic of the research and the research methodology, the editor selects the reviewers. Editors and reviewers are assigned with the AAA's conflict of interest policies in mind. The reviewers provide detailed evaluations about each paper's strengths and weaknesses as well as a private publication recommendation. A "double blind" review process is followed, so the author(s) remain anonymous to the reviewers and *vice versa*. The editor then evaluates the reviews and makes an editorial decision based on the reviews and their own consideration of the paper. The paper may then be rejected, conditionally accepted, or sent back to the author, with the editor requesting that they revise the manuscript according to the evaluation of the reviewers and/or editor and then resubmit. The paper repeats this process until a final decision is

reached.

*TAR*'s process is distinct from that of other AAA journals in a few ways. First, authors may suggest an action editor and two reviewers. They may also identify potentially conflicted reviewers who they believe would not provide an objective review. These suggestions are helpful and are taken into account; however, they are not always reflected in final assignments because of editor-identified conflicts and the need to balance the workload across the full team.

Second, *TAR* has a formal appeals process. While *TAR*'s overall policy is that the editor's editorial decision on a paper is final, there are two conditions under which a manuscript decision can be appealed: (1) a breach in the editorial process (e.g., discovery of a previously unknown conflict of interest) or (2) a fundamental error in fact on the part of the editor or reviewers that is significant enough to potentially influence the decision rendered. Matters of judgment are not appealable. Authors are required to submit to the senior editor an appeal document that describes the basis for the appeal under one of the two conditions. The senior editor then enlists a consulting editor who is a current or prior editor at *TAR* who has appropriate expertise to judge the matter. The consulting editor is provided with all relevant information (manuscript, reviews, decision letter, and author's appeal) with identities redacted (i.e., the consulting editor does not know the identity of the authors, reviewers, or editor). The consulting editor is asked to make an evaluation of the grounds for the appeal. The consulting editor does not reconsider the original editor's decision, just the facts of the appeal. The consulting editor then submits a report to the senior editor as to the merits of the alleged grounds for the appeal. The senior editor makes a final determination of the merits of the appeal. This process has been constructed to provide a clearly independent assessment of the original editorial process. If an appeal is rejected, the decision is final.

Other submission policies, such as our conflict of interest and human subject research policies, can be found on the journal website: <https://aaahq.org/Research/Journals/The-Accounting-Review>

#### IV. EDITORIAL AND PUBLICATION STATISTICS

##### Annual Activity

Table 1 reports annual manuscript activity for calendar year 2025.

- Column (a) of Table 1 reports the number of new submissions by year.
- Column (b) of Table 1 reports the number of revised manuscripts resubmitted each year.
- Column (c) of Table 1 reports the number of decision letters issued each year. These numbers include first-round rejections, subsequent round rejections, invitations to revise and resubmit, and conditional and final acceptances.

The decision letters in column (c) include 46 desk rejections in 2025, which equals 5 percent of the 833 new submissions.

**TABLE 1**  
**Annual Activity Summary—For the Calendar Year**

Year	New Submissions Received (a)	Resubmissions Received (b)	Decision Letters Sent (c)
2025	833	422	1,206

##### Acceptance/Rejection Rate

Table 2 provides information on the journal's acceptance and rejection rates by analyzing the decision outcomes for submission cohorts in the past seven years. Column (a) presents the number of submissions each year, which is the same as column (a) in Table 1. Columns (b) through (g) partition each year's cohort based on outcomes as of the end of 2025. Specifically, for each cohort year:

- Columns (b) and (c) report the number and percentage of submissions that have been rejected;
- Columns (d) and (e) present the number and percentage of submissions for which no decision has been made; and
- Columns (f) and (g) present the number and percentage of submissions that have been accepted, respectively.

Thus, this table reveals the ultimate outcome of each year's cohort of new submissions. However, the final acceptance rate for any given cohort is not available until all submissions in that year have been processed, which typically takes a few years.

**TABLE 2**  
**Annual Outcome Summary—By Calendar Year Cohort**

Year	New Submissions Received (a)	Number of Rejections (b)	Percentage of Rejections (c) = (b)/(a)	Number of Papers in Process (d)	Percentage in Process (e) = (d)/(a)	Number of Acceptances (f)	Percentage of Acceptances (g) = (f)/(a)
2025	833	564	68%	258	31%	11	1%
2024	846	683	81%	138	16%	25	3%

2023	729	614	84%	40	6%	75	10%
2022	729	661	91%	3	0%	65	9%
2021	824	737	90%	1	0%	86	10%
2020	793	696	88%	0	0%	97	12%
2019	754	646	86%	1	0%	107	14%

## V. CONCLUSION AND NOTES OF THANKS AND RECOGNITION

We appreciate the service of the *ad hoc* editors who selflessly agree to occasionally step into the editor's role when needed, as well as the many colleagues who act as *ad hoc* reviewers, listed in Appendix A, and generously share their insight and expertise to help evaluate and improve submissions. We are also beholden to our Editorial Board members, who are listed on the journal website, and whose expert advice forms the backbone upon which the journal is built, and the foundation for our evaluations.

## APPENDIX A

### *Ad Hoc* Editors

Christopher P. Agoglia, University of Massachusetts Amherst  
 Christopher S. Armstrong, Stanford University  
 Jeremy Bertomeu, Washington University in St. Louis  
 Mark T. Bradshaw, Boston College  
 Brian Cadman, The University of Utah  
 Christopher S. Chapman, University of Bristol  
 Margaret H. Christ, University of Georgia  
 Jacqueline S. Hammersley, University of Georgia  
 Michael D. Kimbrough, University of Maryland  
 Kenneth J. Klassen, University of Waterloo  
 Laureen A. Maines, Indiana University Bloomington  
 Xiumin Martin, Washington University in St. Louis  
 Linda A. Myers, The University of Tennessee  
 Joseph H. Schroeder, Indiana University Bloomington  
 Michael G. Williamson, University of Illinois Urbana-Champaign

### *Ad Hoc* Reviewers

Heba Abdel-Rahim, University of Toledo  
 Inna Abramova, London Business School  
 Marte Abts, KU Leuven:  
 Andrew Acito, Virginia Tech  
 Renée Adams, University of Oxford  
 Nishant Agarwal, University of Western Australia  
 Christopher Agoglia, University of Massachusetts Amherst  
 Per Ahblom, Norwegian University of Science and Technology  
 John Aland, University of Notre Dame  
 Cristina Alberti, Babson College  
 Ana Albuquerque, Boston University  
 Aleksander Aleszczyk, New York University  
 Badryah Alhusaini, Arizona State University  
 Ashiq Ali, The University of Texas at Dallas  
 Kristian Allee, University of Arkansas  
 Eric Allen, University of California, Riverside  
 Elizabeth Altiero, University of Central Florida  
 Harald Amberger, Dartmouth College  
 Dan Amiram, Tel Aviv University

Hami Amiraslani, ESMT Berlin  
Byeong-Je An, San Diego State University  
Vic Anand, Texas State University  
Divya Anantharaman, Rutgers, The State University of New Jersey  
Spencer Anderson, Indiana University Bloomington  
James Anderson, Saginaw Valley State University  
Lindsay Andiola, Virginia Commonwealth University  
Paul Andon, UNSW Sydney  
Daphne Armstrong, University of Michigan  
Markus Arnold, Universität Bern  
Martin Artz, University of Münster  
Bright Asante-Appiah, Lehigh University  
Musaib Ashraf, Michigan State University  
Romana Autrey, University of Illinois Urbana-Champaign  
Ilona Babenko, Arizona State University  
William Baber, Georgetown University  
Amadeus Bach, University of Mannheim  
Brad Badertscher, University of Notre Dame  
Marc Badia, IESE Business School  
Leah Baer, University of Northern Iowa  
Ge Bai, Johns Hopkins University  
Young Il Baik, Nanyang Technological University  
Brian Baik, Harvard University  
Ashleigh Bakke, University of Arkansas  
Ramji Balakrishnan, The University of Iowa  
Hailey Ballew, Rice University  
Vishal Baloria, University of Connecticut  
Matthew Bamber, York University  
Snehal Banerjee, University of Michigan  
Jason Bangert, University of Cincinnati  
Leonardo Barcellos, Arizona State University  
Sudipta Basu, Temple University  
Riddha Basu, The George Washington University  
Céline Baud, Université Paris Dauphine  
Andrew Bauer, University of Waterloo  
Matthew Baugh, Arizona State University  
Mark Beasley, North Carolina State University  
Anne Beatty, The Ohio State University  
Pauline Beau, TBS Education  
Amanda Beck, Georgia State University  
Andrew Belnap, The University of Texas at Austin  
Messod Beneish, Indiana University Bloomington  
Daniel Bens, University of New Hampshire  
Jeremiah Bentley, The University of Oklahoma  
Jon Bergdoll, Indiana University Indianapolis  
Leslie Berger, Wilfrid Laurier University  
Lori Bhaskar, Indiana University Bloomington  
Neil Bhattacharya, Southern Methodist University  
Sanjeev Bhojraj, Cornell University  
Katarzyna Bilicka, Utah State University  
Pawel Bilinski, University of London  
Matthew Billett, Indiana University Bloomington  
Mary Billings, New York University  
Oliver Binz, ESMT Berlin  
Jannis Bischof, University of Mannheim

Paul Black, Auburn University  
James Blann, Georgia Institute of Technology  
Bradley Blaylock, The University of Oklahoma  
Robert Bloomfield, Cornell University  
Jennifer Blouin, University of Pennsylvania  
Emily Blum, Texas A&M University–College Station  
Peter Bogetoft, Copenhagen Business School  
Pietro Bonetti, Instituto de Estudos Sociais e Economicos  
Jonathan Bonham, University of Illinois Chicago  
Samuel Bonsall, The Pennsylvania State University  
Francesco Bova, University of Toronto  
Daniel Bradley, University of South Florida  
Scott Bronson, The University of Kansas  
Jason Brown, Indiana University Bloomington  
Alexander Brüggem, Maastricht University  
Liesbeth Bruynseels, Catholic University of Leuven  
Merridee Bujaki, Carleton University  
Jenna Burke, University of Colorado Denver  
Joseph Burke, Colorado State University  
Brian Bushee, University of Pennsylvania  
Robert Bushman, The University of North Carolina at Chapel Hill  
Donal Byard, Baruch College–CUNY  
Dmitri Byzalov, Temple University  
Jay Cai, Drexel University  
Wei Cai, Columbia University  
Dennis Campbell, Harvard University  
Thomas Canace, Wake Forest University  
Sean Cao, University of Maryland  
Eddy Cardinaels, Tilburg University and KU Leuven  
Michael Carniol, Rutgers, The State University of New Jersey  
Richard Carrizosa, The University of North Carolina at Charlotte  
Mary Ellen Carter, Boston College  
Stefano Cascino, The London School of Economics and Political Science  
Elisa Casi, Eberhard Norwegian School of Economics  
Cory Cassell, University of Arkansas  
Ryan Cating, University of Central Arkansas  
Marcus Caylor, Kennesaw State University  
Richard Cazier, University of North Texas  
Mark Cecchini, University of South Carolina  
Matthew Cedergren, Santa Clara University  
Derek Chan, The University of Hong Kong  
Eric Chan, The University of Texas at Austin  
Jesse Chan, Boston University School of Management  
Paul Chaney, Vanderbilt University  
Kimball Chapman, Arizona State University  
Chandrani Chatterjee, The University of Texas at Arlington  
Ciao-Wei Chen, University of Illinois  
Gary Chen, DePaul University  
Hui Chen, University of Zurich  
Jason Chen, University of Illinois at Chicago  
Jeff Chen, TCU: Texas Christian University  
Kevin Chen, Duke University  
Mark Chen, Georgia State University  
Qi Chen, Duke University  
Shannon Chen, The University of Arizona

Wen Chen, City University of Hong Kong  
Wilbur Chen, The Hong Kong University of Science and Technology  
Yaxuan Chen, Cornell University  
Yi-Chun Chen, The University of Hong Kong  
Yangyang Chen, City University of Hong Kong  
C. S. Agnes Cheng, The University of Oklahoma  
Mandy Cheng, UNSW Sydney  
Qiang Cheng, Singapore Management University
