

Python Environment Preparation

<https://youtu.be/nU2Egc3Zx3Q>

Step 1: Install Python

Step 2: Install Jupyter Notebook with PIP

How to Installing Jupyter Notebook on windows 10 using PIP in three steps :

1- install python : <https://www.python.org/>

2- install pip : <https://pip.pypa.io/en/stable/installation/>

3- install **jupyter notebook**: <https://youtu.be/McAn3vUDQKw>

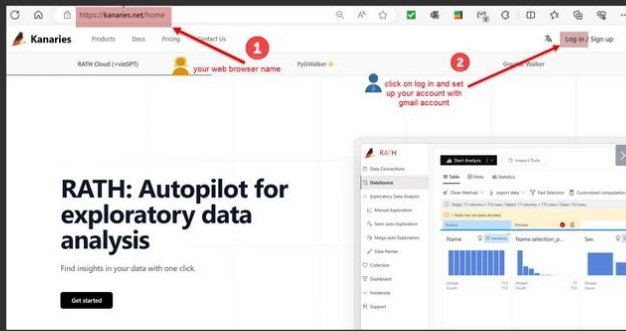

You can use Google Colab to run Python Code if you prefer.

Link to Colab
