### **Full Description:**

We are proposing a session on accounting history research. Each year at the annual meeting we invite speakers to assist new scholars and existing scholars historical research in accounting. Speakers chosen for these sessions are some of the top accounting history researchers in the US and from other countries. We focus these sessions on helping Non history trained researchers to become familiar with accounting history. Also included in session is a talk by the journal editor about being successful in publishing in our section journal.

### **Format/Structure of the Workshop:**

The format for this session is a series of speakers presenting information on accounting history research.

### **Intended Audience:**

Any persons interested in accounting history research.

### **Learning Objectives:**

Increased production of accounting history research.
