

Call for Papers

2nd International Conference of the *Journal of Information Systems*

Conference Date: September 1-3, 2022

The *Journal of Information Systems (JIS)* is the academic journal of the Accounting Information Systems (AIS) Section of the American Accounting Association. Its goal is to support, promote, and advance accounting information systems knowledge. The primary criterion for publication in *JIS* is contribution to the accounting information systems, accounting and auditing domains by the application or understanding of information technology theory and practice.

This International Conference of the JIS is meant to encourage accounting information systems researchers around the world, especially outside the United States, to submit their original academic papers to *JIS*. More importantly, this special forum would like to highlight the unique institutional contexts in different countries and regions that can further our understanding of accounting information systems research. Of particular interest are papers that deal with technological aspects and phenomena related to accounting and auditing that are not commonly investigated in an US context.

Detailed program, travel and logistic information will be provided to conference participants and can be found on the conference website: <https://www.ircg.msm.uni-due.de/aktuelles/jisc-2nd-international-conference-2022-in-duisburg/>.

Topics and Research Methodologies

Papers addressing a wide range of issues related to accounting information systems and information technology will be considered. All research methodologies are welcome, including experimental, qualitative, field study, analytical, behavioral, archival, and design science.

Paper submission

Papers to be considered for this conference should follow the *JIS* editorial policy and be submitted to *JIS* using the AAA's manuscript management system (<https://www.editorialmanager.com/isys/default1.aspx>) and by selecting the corresponding conference article type. Also, please provide a cover letter indicating your submission is for the conference. Submission fees can be paid at <https://aaahq.org/Research/Journals/Information-for-Authors/Online-Payment/productcd/ISSUBM>. Papers accepted to the conference will receive a strong consideration for acceptance to *JIS*. Research teams are expected to improve their papers following the guidance from the reviewers and from the interactions at the conference. Recognition of the paper's inclusion at the conference will be noted if the paper ultimately reaches publication.

Deadlines

Submission: May 15, 2022, 11:59PM EST Time (early submission is encouraged)

Notification: June 30, 2022

Pre- Conference PhD-Workshop and Early Bird Reception, University: September 1, 2022
of Duisburg-Essen, Germany

Main Conference: September 2-3, 2022
