Paper Decision: **April 1, 2013**

Submission Deadline of Accepted Papers: **May 1, 2013**

Track 20: Accounting Information Systems

Track Co-Chairs

- Angela Liew, University of Auckland, a.liew@auckland.ac.nz
- Carla Wilkin, Monash University, carla.wilkin@monash.edu

Track Description

The purpose of the track is to solicit and disseminate thoughtful and good quality articles that examine the rapidly evolving relationship between accounting and information technology, and are interested in conceptual and empirical papers that draw upon theories and/or methodologies from Accounting, IS and other disciplines to intensify and extend research perspectives.

Topics of interest include but are not limited to:

- Accounting information system modeling, design and implementation issues
- Accounting information system integration
- Risk assessment and enterprise risk management
- Evaluation, assessment and business value of accounting information systems
- Accounting information systems and governance
- Business intelligence and accounting information systems
- Global accounting information systems
- XBRL
- Case studies about accounting information systems
- Management control and information systems
- Internal control and fraud
- Forensic auditing
