

To ATA Members and Visitors,

If you attended the AAA Annual Meeting you know we had an excellent ATA representation in research sessions and panels. I want to thank Steven Savoy (Chair), Andrew Finley (Vice Chair), and the 33 members of the Annual Meeting Program Committee for all of their work in planning this program. By all accounts it was a huge success! Thanks to each of you for your service.

If you did not attend the AAA/ATA Business Meeting, all ATA committee reports are finalized and should be available on the website soon. Please take a few moments to review them and apprise yourself.

AAA has provided an ATA digital badge that is available for social media use. Please update your profiles with your badge! As well, AAA has proposed bylaws' amendments and voting is open through August 15th <https://aaahq.org/About/Governance/2022-AAA-Bylaws-Revision-Election>.

Congratulations to our inaugural DEI Officer, Erin Towery. I look forward to the coming year and the opportunities we have to move the DEIB needle. Members, AAA is offering a series of DEI modules with certification. These will soon be available for completion.

I want to thank the entire 2021-2022 ATA leadership team for your support and service! The success of the Annual Meeting Program was a wonderful conclusion to my Presidency. It has been a pleasure serving the membership. I count many of you not only as colleagues, but friends and family.

Please welcome our 2022-2023 President, Pete Lisowsky, and the new leadership team. We have another strong set of leaders to carry us forward.

Wishing you all a successful academic year,

Lynn Comer Jones
ATA Past-President, 2022-2023
Georgia State University
