SATURDAY, August 10th, 2024

The 33rd Annual Research Workshop on Strategic and Emerging Technologies in Accounting, Auditing, and Tax will be held on Saturday, August 10th, 2024. The Strategic and Emerging Technologies Section of the American Accounting Association (http://aaahq.org/set) sponsors the Workshop.

RESEARCH DOMAIN
Papers are welcome on any topic relating to strategic and emerging technologies applied to any area of accounting, applying any research methodology including design science (DSR). Examples of research presented at recent workshops: text/data analytics, REA, continuous assurance, fraud detection, information modeling, machine learning, neural networks, natural language processing, intelligent databases, XML, XBRL, blockchain, and generative AI.

AWARDS
Two Best Paper awards will be given: one for the best presentation by a doctoral student, and one for the best presentation by a faculty member.

GUIDELINES
- Working papers that have not been accepted for publication are eligible for submission. Early-stage research and doctoral proposals from doctoral students are particularly encouraged. Authors from anywhere in the world are welcome.
- Papers will be considered for the SET Section Journal, *Journal of Emerging Technologies in Accounting* (JETA), at the option of the author. Please indicate if you would like your paper to be considered for JETA publication.
- Authors of accepted papers are expected to pay associated registration fees. The registration fees are waived for doctoral student members of the SET Section presenting their research.
